KNOW WHAT'S WRONG.
WATCH IT GET BETTER.

01 EXECUTIVE SUMMARY

Your Business is showing demand potential, but trust is currently the largest constraint preventing customers and AI systems from confidently choosing the business. If nothing changes, competitors with stronger proof can keep capturing the highest-intent opportunities. Today's highest-value mission is complete google business profile verification, projected to move the Business Growth Score™ from 66 toward 79.

Stagnating

the score moved +2 points since the prior baseline. The business is not blocked by demand; it is constrained by proof, so trust coverage is the lever most likely to convert momentum into measurable growth.
